

# Medfusion™ 3500 Syringe Pump

with PharmGuard® Medication Safety Software

A safer, easy to use system for O.R. anesthesia

When you're ready to replace your anesthesia or TIVA infusion pumps, consider the Medfusion™ 3500 syringe pump with PharmGuard® medication safety software.

## Quick Library

The preset drug programs in the Quick Library feature allow clinicians to quickly and easily program Medfusion™ 3500 pumps to deliver propofol:

Press Power  
Press Propofol  
Press Start

## Safety is in the System

### PharmGuard® medication safety software – your smart pump solution

- Allows you to customize Medfusion™ 3500 syringe pumps to meet your facility's needs and provide safer medication delivery.
- Drug libraries help reduce medication errors
- Hard and soft safety limits are available for all delivery modes
- 16 profile areas allow for customization and specific use in up to 16 different care areas of a hospital
- Large character capacity makes it possible to input full drug names and concentrations
- "Tall Man" lettering helps prevent look alike drug name errors
- Customizable drug alerts
- Reports allow clinicians to download and review pump event history

with PharmGuard®  
medication safety software

### The ideal infusion system for delivering propofol to patients in the operating room setting

- Pump mounting flexibility – can be placed on a flat surface or on a pole
- Stand-by mode reduces nuisance alarms
- Flow rate infusion accuracy of +/- 2% even with low volume infusions
- Medex® Ultra non-PVC extension sets are also available from Smiths Medical
